

2008-09 CAPIC-mhsa Stipend Recipients

The following students were selected from a great number of applicants through a “blind” evaluation of their application materials.

They have demonstrated the qualities of a clinical psychologist that are valued by CAPIC and by the California Department of Mental Health:

- * Comprehensive Coursework in the basic field of Clinical Psychology
- * Commitment to working with the underserved population of California
- * Skilled in working with clients from the publically funded MH system
- * Internship training in a publically funded mental health agency
- * Reflect the diversity of the State of California
- * Willing to work for a year following graduation in a publically funded MH agency

A number of these honored recipients have provided information about themselves, their commitment to working with the underserved in California, and the communities they serve. Click on the highlighted names to access this additional information.

Annalisa Almendras
