CAPIC 2012-2013 Online Match Process **LATEST UPDATES** (as of 01/12/2012)

The student application deadline (Match I) remains 11 PM PST on Monday, January 16, 2012.

- The CAPIC office will be open that day from 8:30 am to 6 pm.

Applications for this first round of the CAPIC match will NOT be accepted after this deadline.

- Before any CAPIC applications can be submitted, students must have all their required application materials in place (CUA, Essays (2), Cover Letter, CV, Letters of Reference (3) and CERF Verification).
- **Students may choose to first apply through the APPIC process, but if they do not submit their CAPIC applications by January 16th, they will be unable to rank and possibly match in the first round (Match I) of the CAPIC online match process.**
 - The CAPIC ranking deadline for Match I is February 27th, three days after the APPIC match date, but students must first meet the CAPIC application deadline.
 - If a student submits CAPIC applications by the January 16th deadline, but also participates AND matches with APPIC, the student may withdraw from the CAPIC match without penalty. Indeed, the student should withdraw, so the internship program no longer considers them for a slot.
 - If a student submits CAPIC applications by the January 16th deadline, also participates with APPIC, but DOES NOT matches with APPIC, the student can still rank and possibly rank with a CAPIC internship program in the first round.
 - However, if a student fails to submit CAPIC applications by the January 16th deadline, the student cannot rank nor possibly match with a CAPIC internship program in the first round.
 - While we recommend students meet the January 16th CAPIC application deadline, it is up to them to decide how to manage these options.
 - o We do expect many CAPIC internship slots will be filled in the first round.
 - Students can still participate in the second round of the CAPIC online match process, regardless whether they participate in the first round (unless, of course, they match).

See the reverse for significant updates from CAPIC Predoctoral Internship Programs.
